

# Course Information

## ABRASIVE WHEELS (SAFETY & MOUNTING TECHNIQUES)

### Introduction:

This ½ day course is intended for people who may mount abrasive wheels in the course of their normal duties and require and appreciation of abrasive wheel safety and sound mounting techniques.

### Aims:

By the end of the course, candidates will:

- have a sound knowledge of legal requirements for use of abrasive wheels
- be able to identify different types of abrasive wheels
- be able to mount and use abrasive wheels in the safest manner possible
- understand the different uses of abrasive wheels
- be able to identify the correct running speed of an abrasive wheel

### Objectives:

By the end of the course, candidates will be able to:

- ✓ change / mount abrasive wheels and will be properly trained and appointed
- ✓ protect operators in the event of a wheel "bursting"
- ✓ prevent operators from coming into contact with a moving abrasive wheel
- ✓ know the correct Personal Protective Equipment to wear and the importance of always wearing it when required
- ✓ control the work area conditions where wheels are used
- ✓ prevent overspeeding

### Legislation:

The course satisfies the requirement of the Provision and Use of Work Equipment Regulations 1998 (PUWER 98), Section 9 of the Abrasive Wheels Regulations 1970 and other interrelated legislation.
